

BK Supermix Inc. is a local readymix and hollow blocks supplier in the construction industry. Our automated batching plant has the capacity to provide consistent quality mixtures at any desired quantity. To date, BK Supermix Inc. boasts its successful involvement, through supply, in some of the major structures in and around Georgetown and continues to position itself as a reputable supplier in the industry.

Products and Services

Ready-mix:

We can provide mix designs from 2500 to 7000 PSI. We have also worked with contractors and consultants in providing their special mix design requests.

Hollow Blocks

Available are:

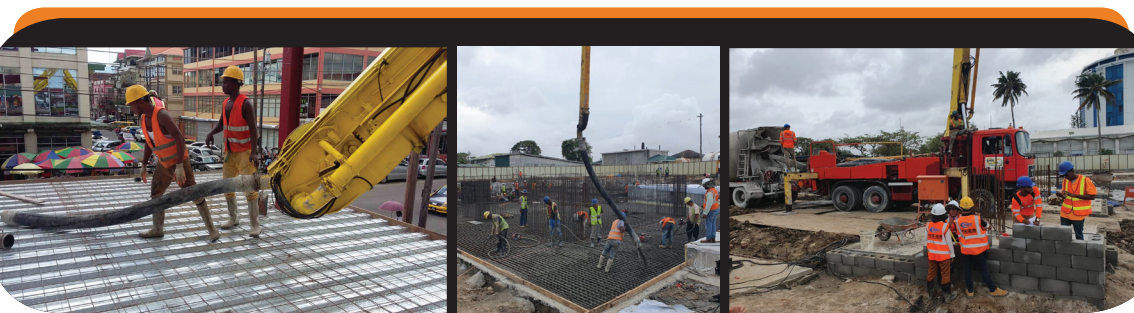

4", 6" and 8" Sifting Hollow blocks.

These have proven to be the most durable hollow blocks in the construction sector.

Compressive Test Analysis:

Our laboratory is equipped to provide compressive strength test results for concrete supplied to clients.
