

Training

- **Maintenance:** Our team is committed to providing customers with aircraft that meets their comfort and safety needs and therefore we continuously employ skilled engineers both locally and internationally to ensure our fleet is always maintained at the highest standard. Our maintenance is also monitored through Avtrak and trend monitoring in USA which provide immediate and direct support
- **Pilot Training:** Our company continues to train our pilots through Flight Safety in USA and employ instructors from Poland relevant to our aircraft

JAGS consistently maintains a direct relationship with the Manufacturers of our fleet of aircraft, so as to have direct access to maintenance support

Our Development Plans

We anticipate expansion plans with the acquisition of:

- Bell 407 Helicopter
- 601 Challenger

Infrastructure Development

JAGS has completed the construction of the Bradley hanger at Eugene F. Correia International Airport which will further improve the hospitality of our services to our customers.

Future of JAGS

With the aim to maximize on the available opportunities in the aviation sector in Guyana, JAGS will employ every viable system and medium to accede to these expectations. In such instances, a variety of measures will be adopted to advance in this direction. Development and expansion of departments and divisions will be established. These include a few critical areas such as but not limited to:-

- A well integrated reservation system for booking and Creating passenger and flight information
- A cargo logistics and interconnected operating system.
- Emphasis on continued customer service training.
- Continued Employment of highly skilled and knowledgeable personnel in aviation.
- Investment in aircraft to meet the growing demands of Guyana's domestic market.
- With knowledgeable Management, effective supervision of staff and adherence to all industry regulation, there should be less concern for incidents or any breakdown of standards.

Our vision is to change the name of JAGS so that it can be more affiliated with the parent company, BK. Therefore the new proposed name will be BK Aviation Inc. and with a well Tool-Equipped and confident management, BK Aviation Inc. will easily live up to its reputation of: "Exceeding its Customers Expectations"
